OVERALL GOAL

Building cyberinfrastructure to enable interdisciplinary synthesis research across islands in the North Atlantic

- Data discovery and visualization tools
- Access to interdisciplinary datasets that can be easily understood by non-specialists

History, Agency, and Conjuncture in the High Middle Ages

Samalas 1257
BOOM !

Black Death in
NW Europe

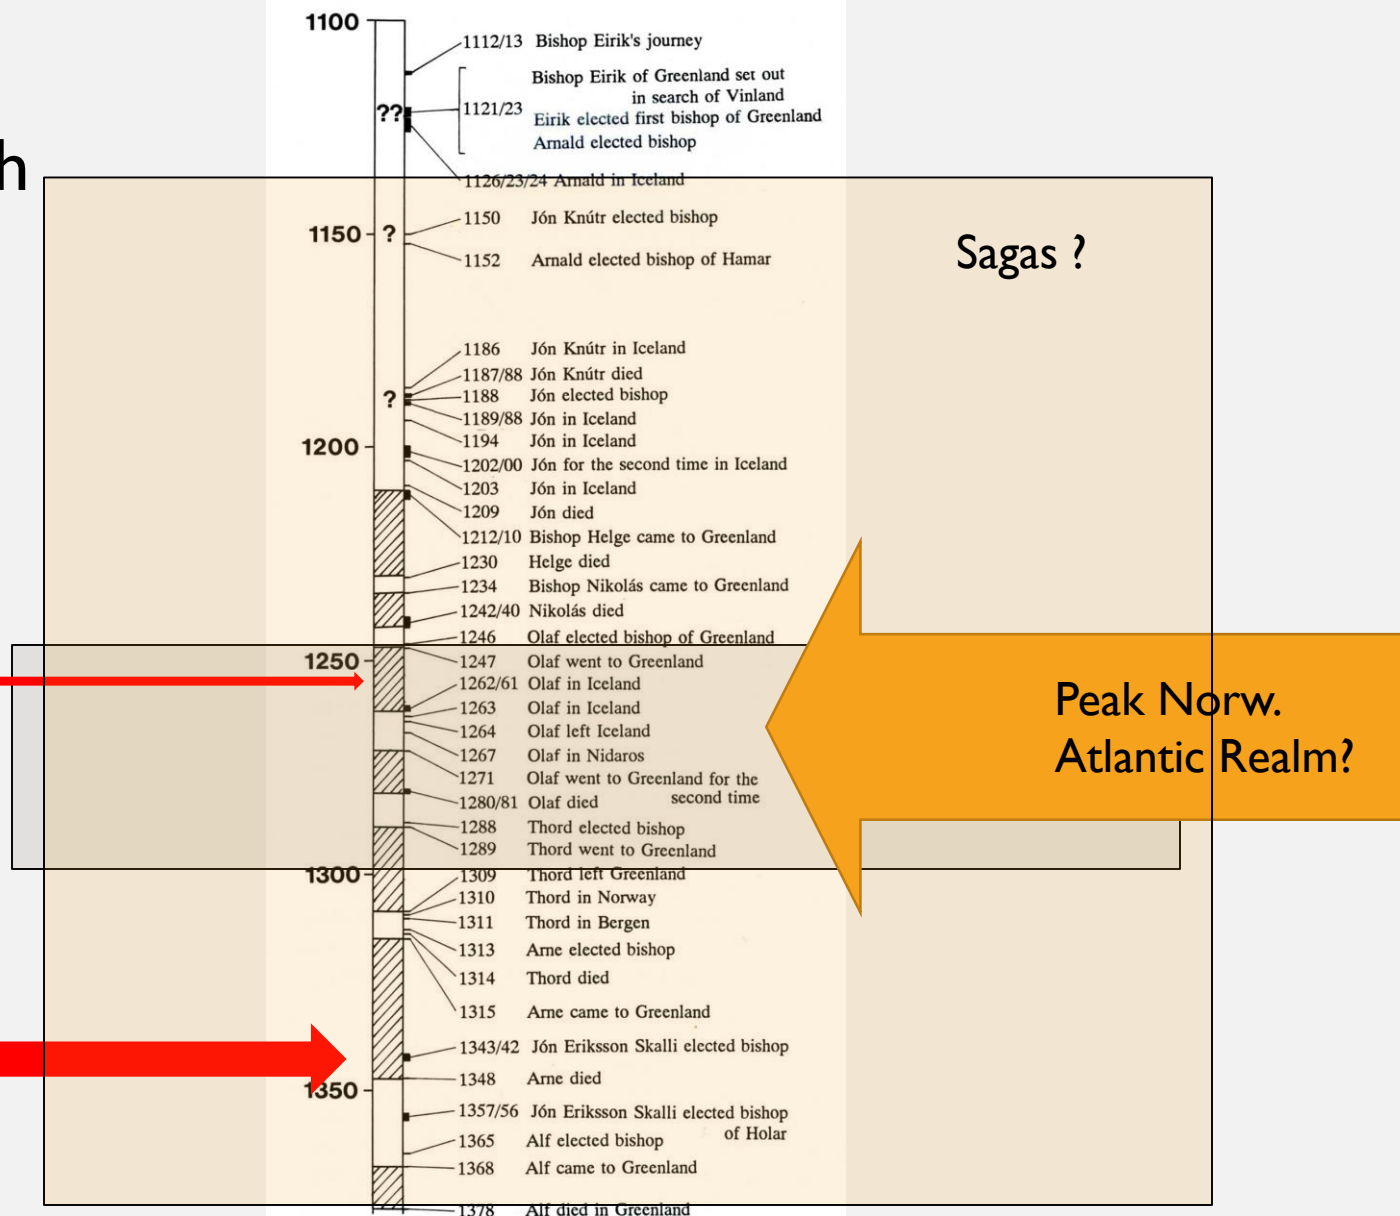

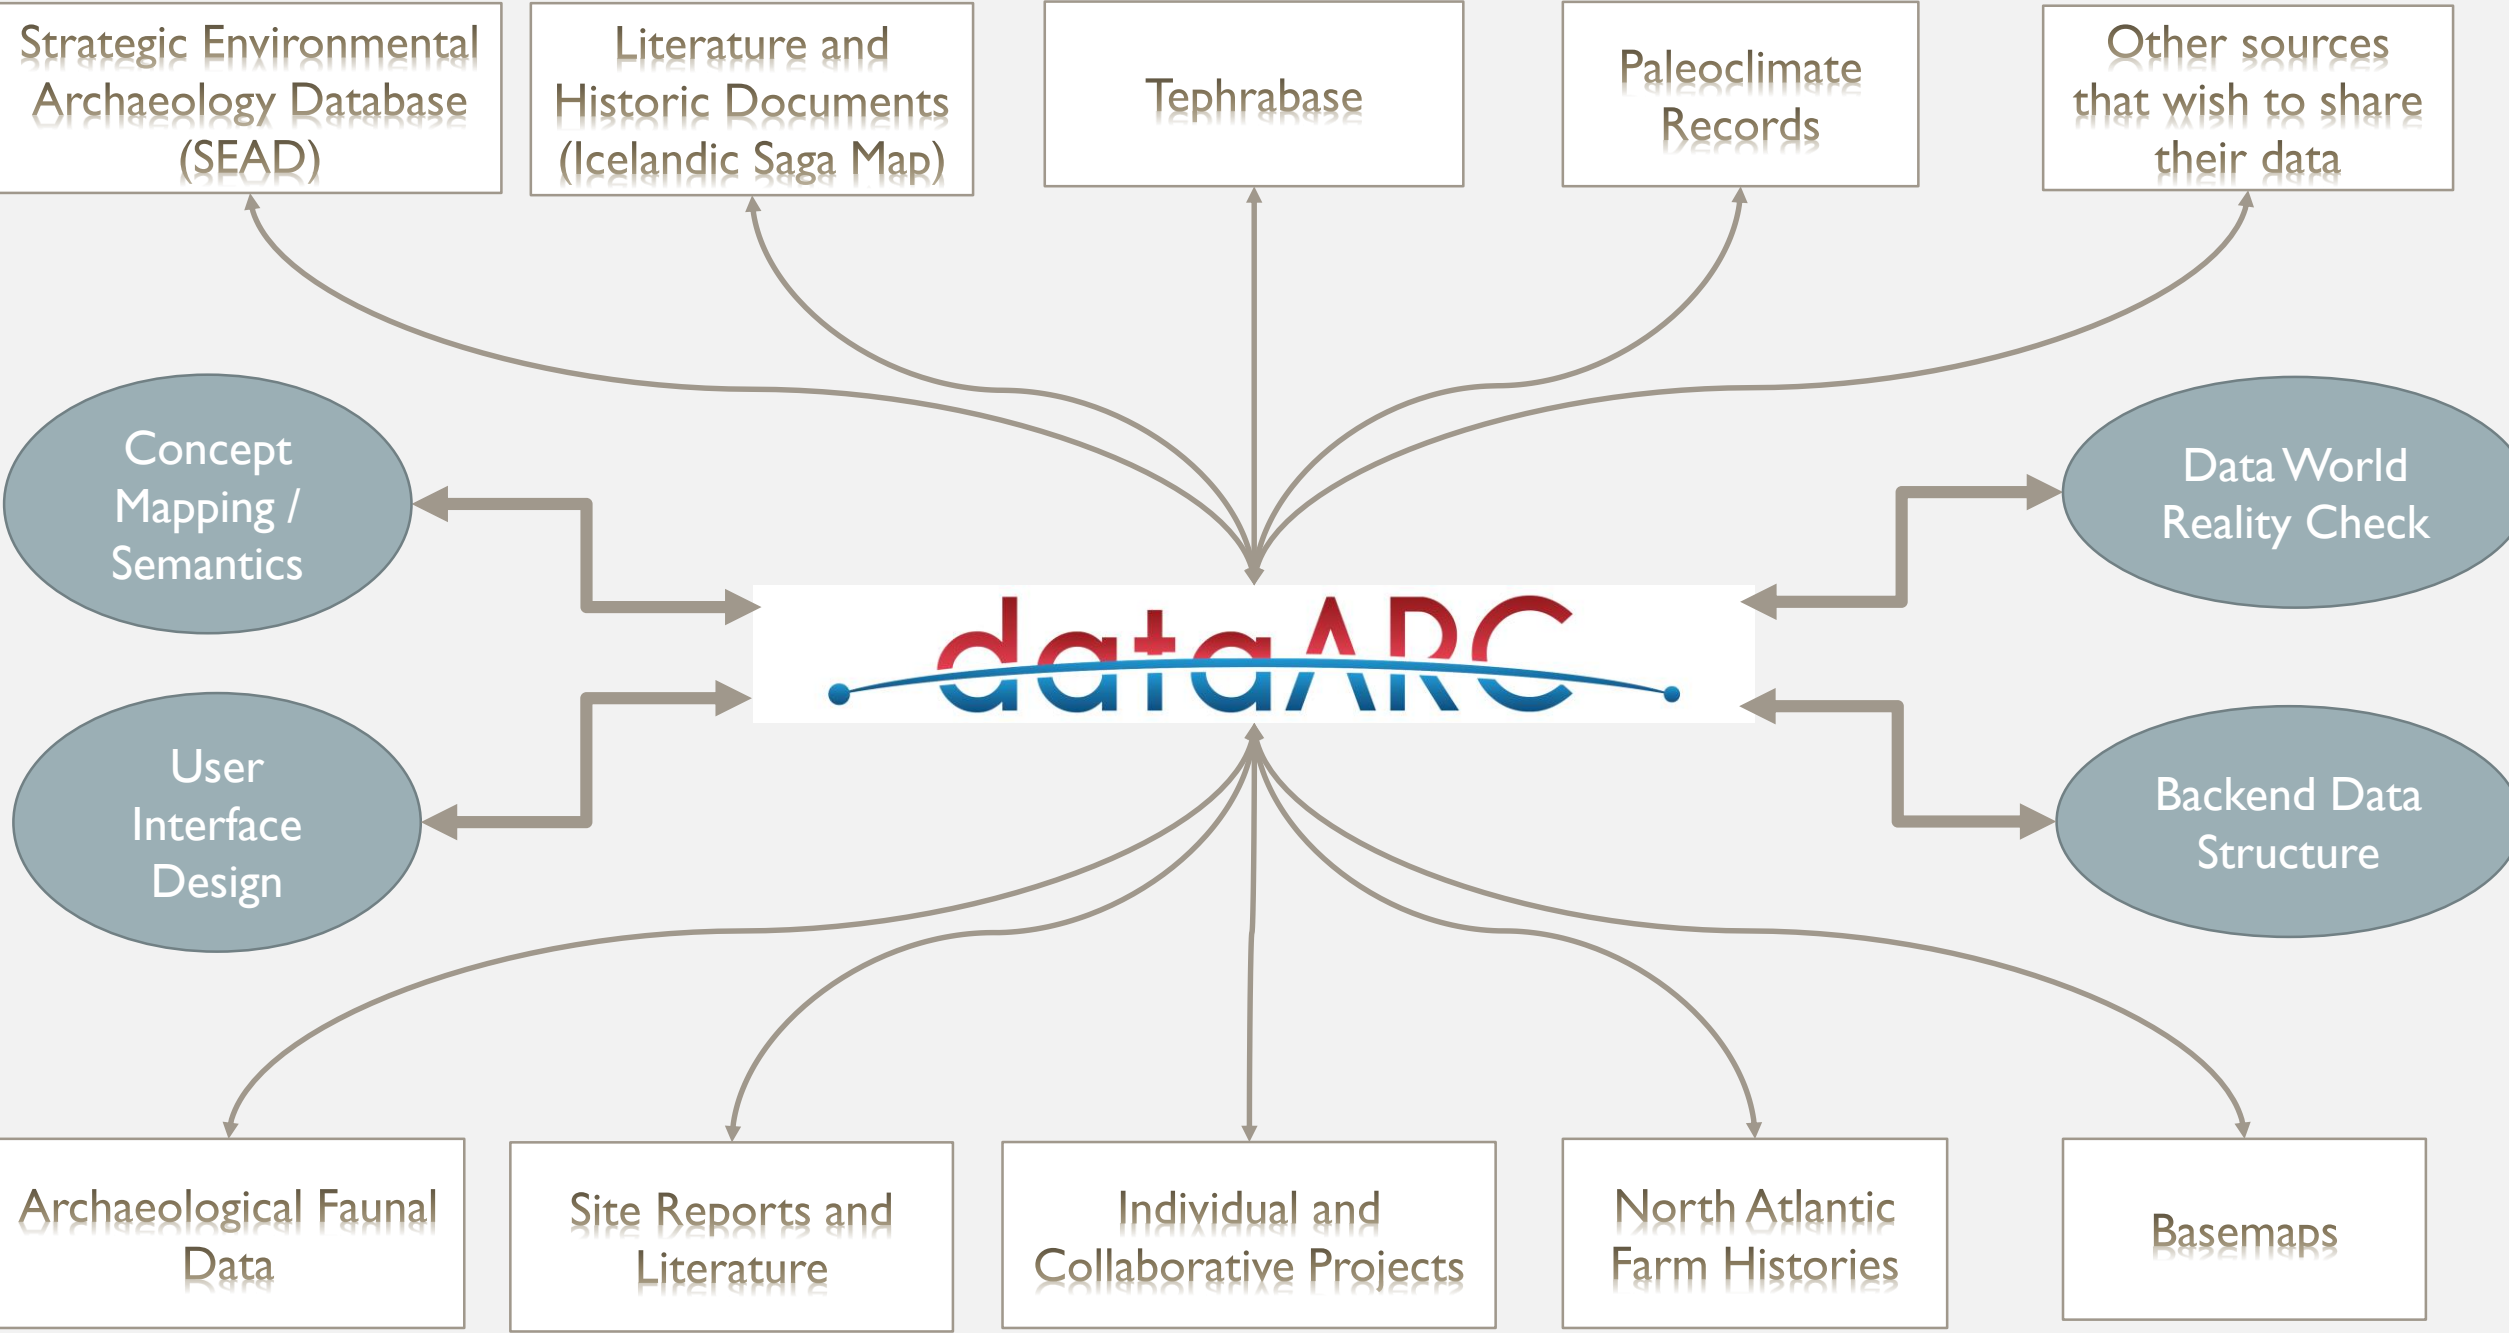

Fig. 2. List of bishops having resided in Greenland according to the Icelandic Annals (GHM III. 6-32). Note: the markings in the column do not indicate how many years the bishops stayed in Greenland.

WHAT EXACTLY ARE WE DOING?

Linking data from archaeology, literature and historic documents (e.g., the Sagas), paleoecology, paleoclimate to enable data discovery for interdisciplinary research on long-term human ecodynamics in the North Atlantic

WHO ARE WE?

Challenges

- Diversity of data
- Linking data at multiple spatial and temporal scales
- Diversity of research group / potential user base
 - Hesitation to share and/or document data
 - Concept mapping linkages and nodes
- How processed / aggregated should the data be?

Overall: Most challenges are not technical.

They are social!

TO DO'S

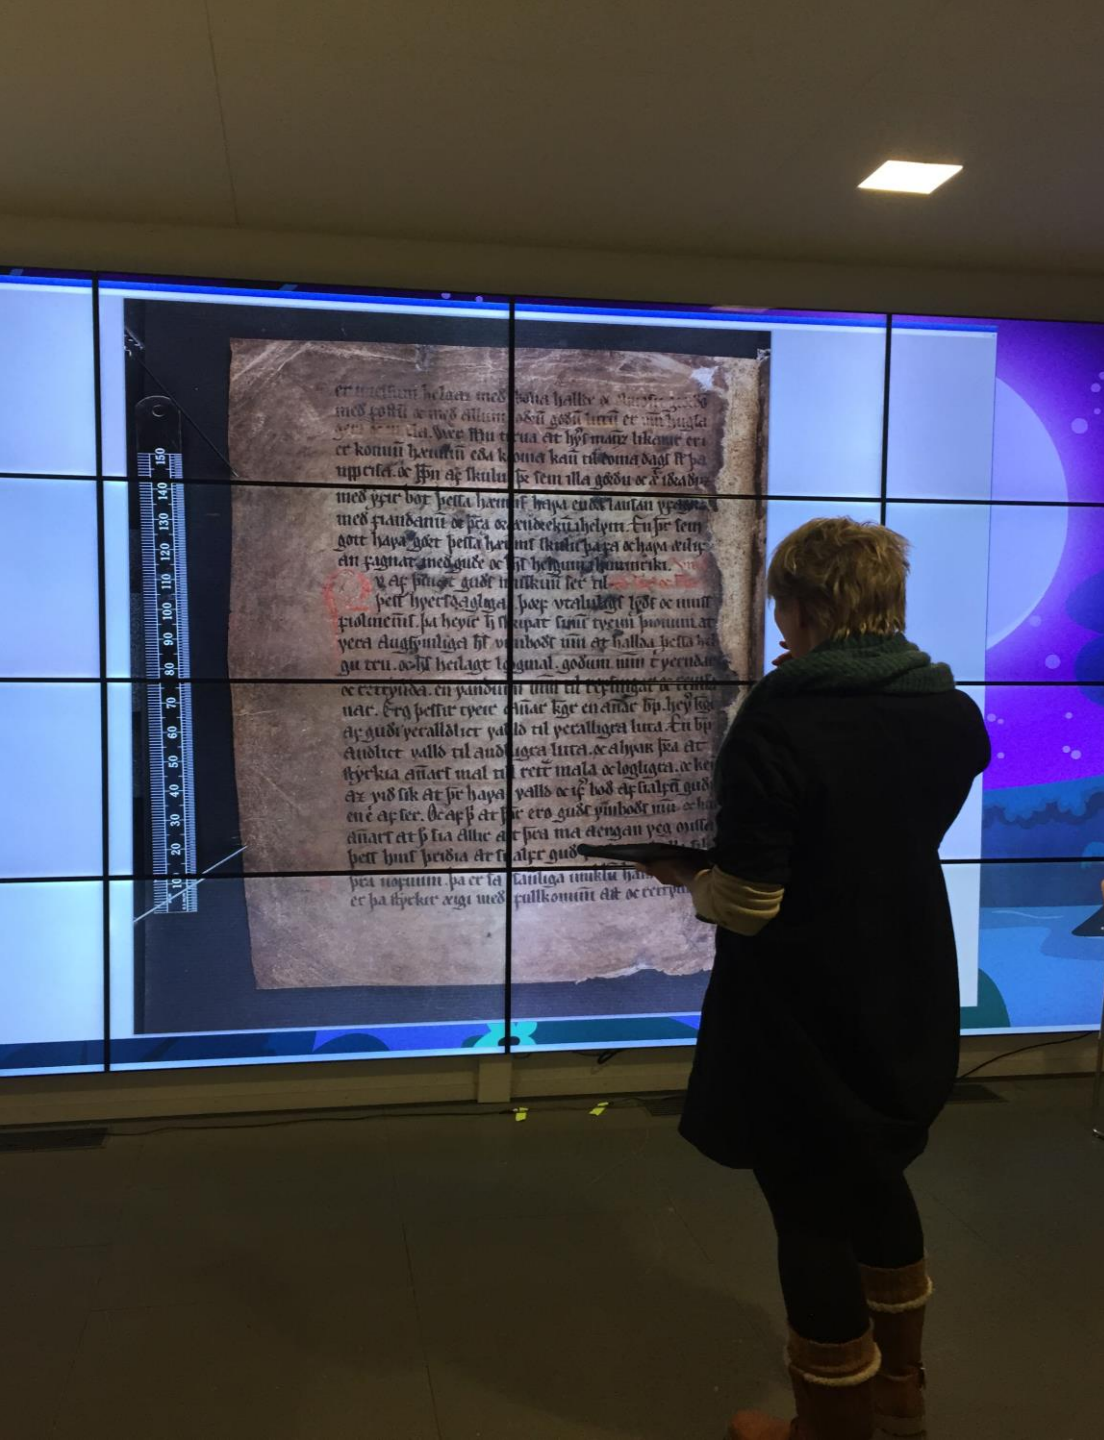

data cleanup and structures

potential user interfaces for a diverse group

spatial and temporal search

conceptual / semantic linkages

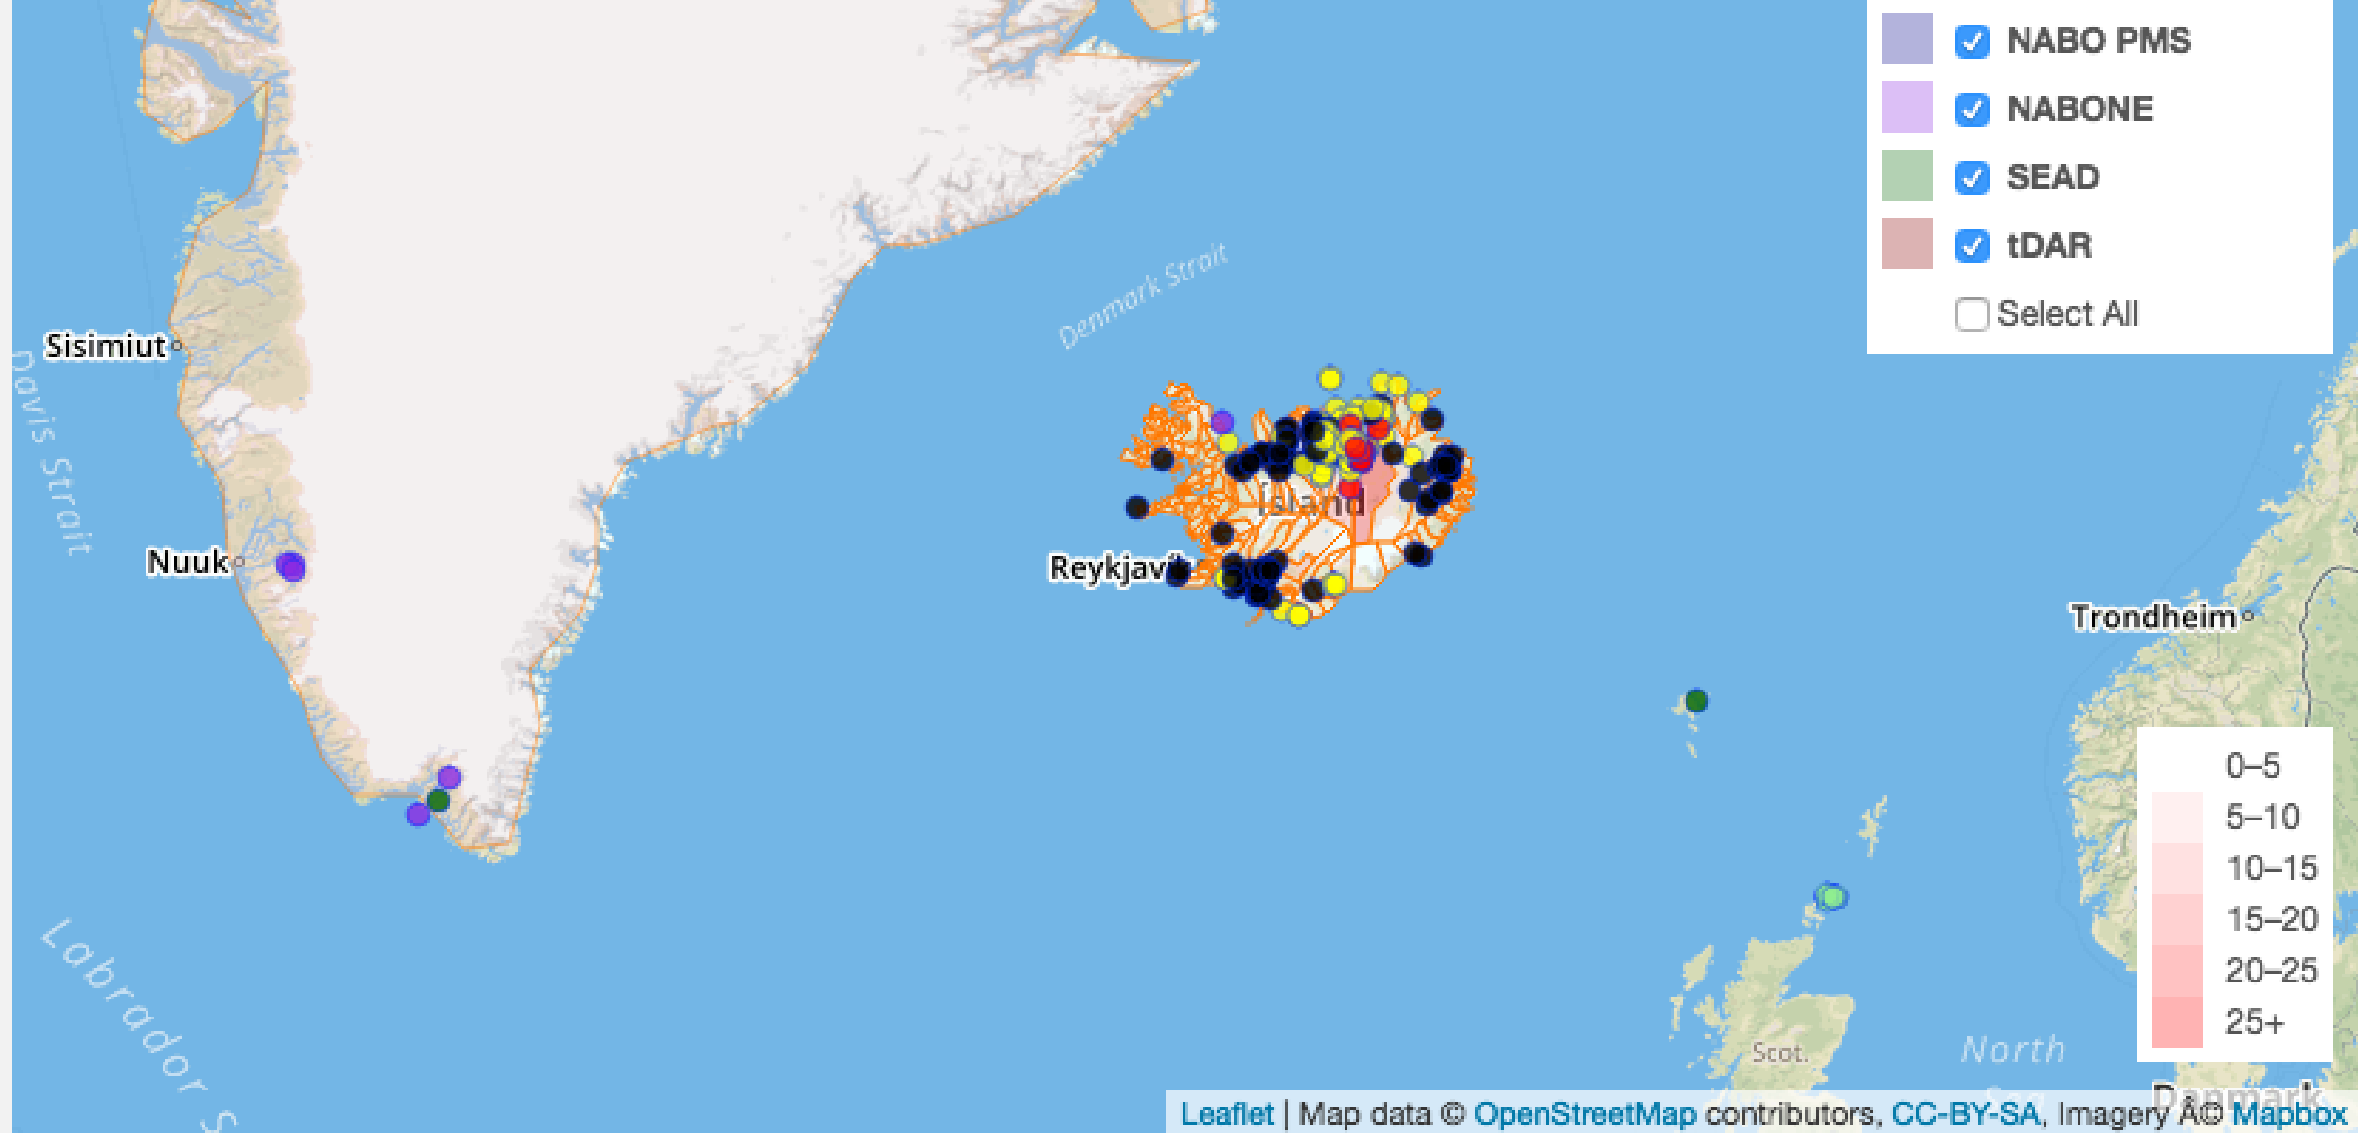

figure out the “aggregated / processed data” that we would like to focus on

THE PROTOTYPE

data-arc.org/prototype

<http://scratch.cast.uark.edu/dataarcwireframe/>

Limit by year: 0 2016 ☐ cluster results?

Iceland Landnam

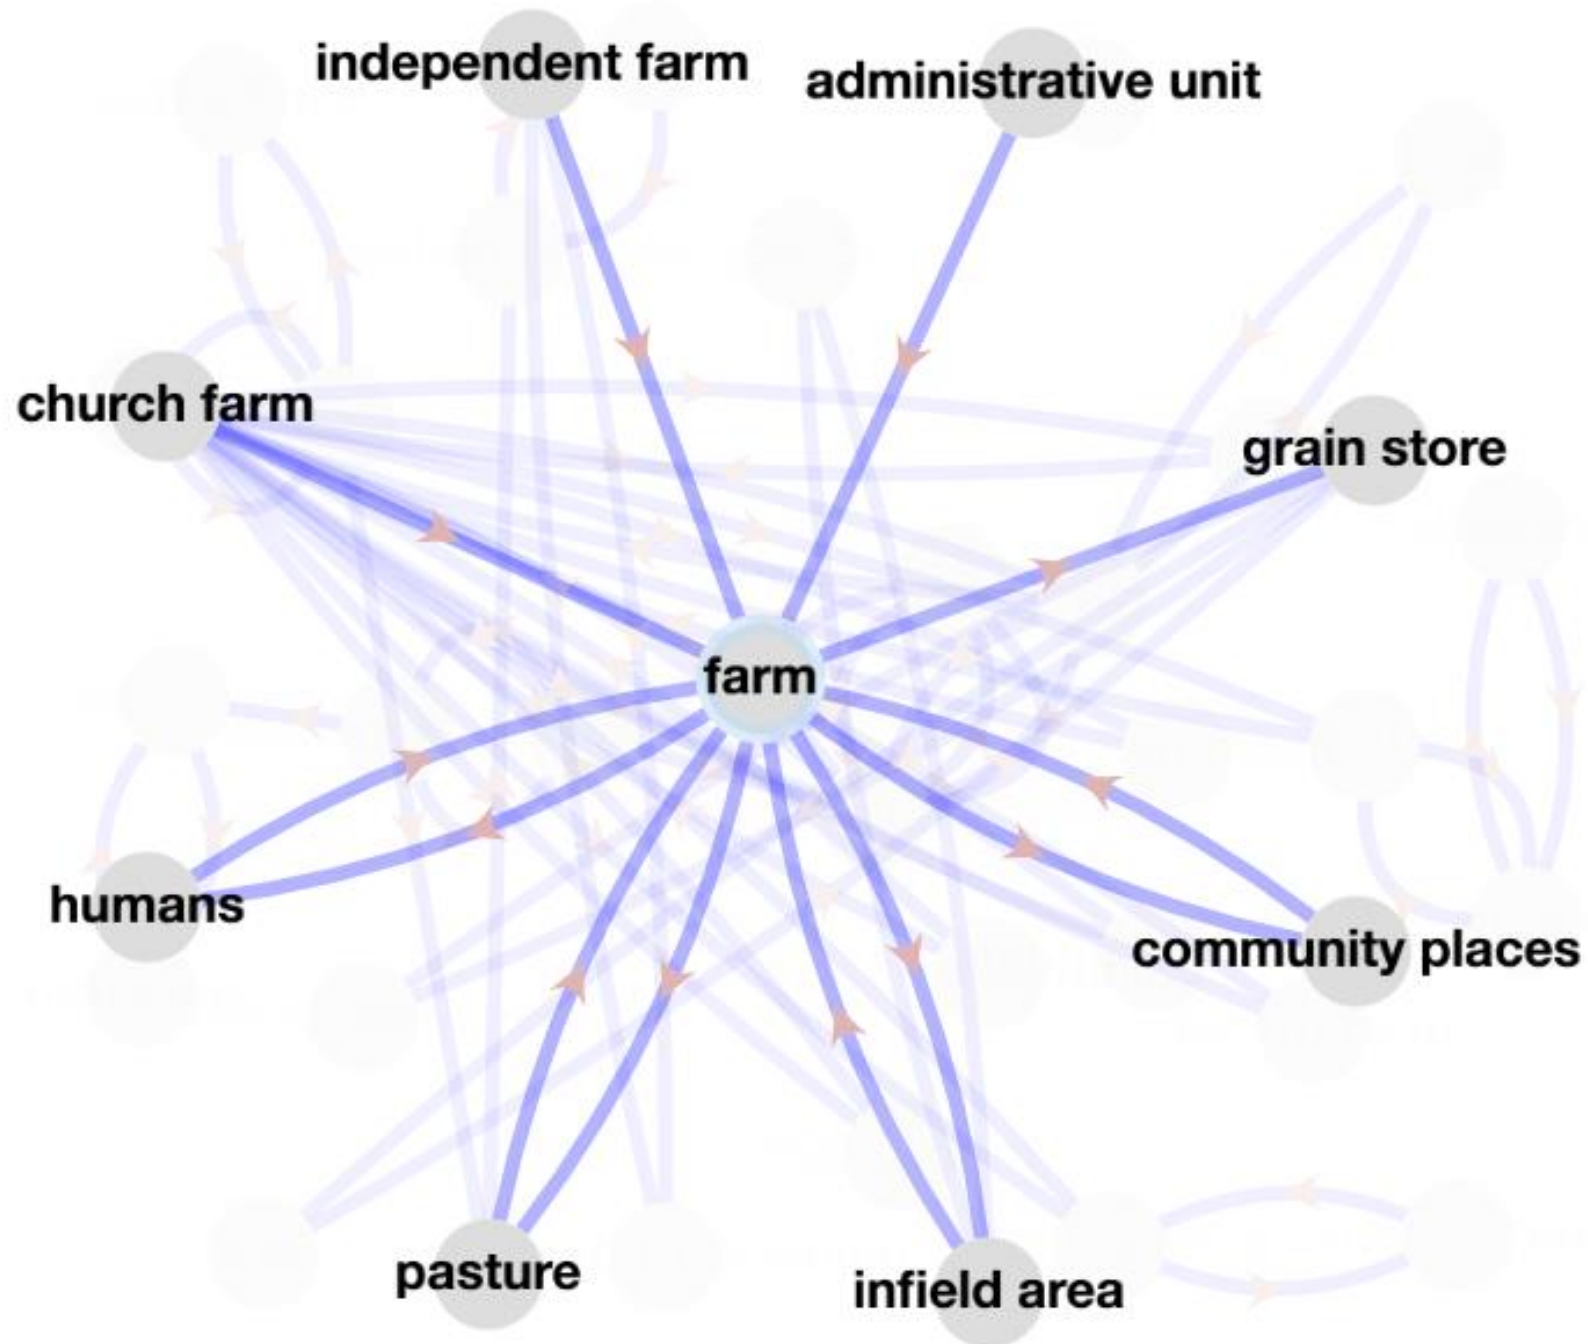

Christianity formally accepted in Iceland and Greenland

Maximum

Greenland and Vinland Landnam

"Viking to Crusader" Period

Norman conquest of England constitutes formal end of

farm (Center)

Interdisciplinary Analysis Addressing Long-Term Human Ecodynamics in the North Atlantic

Example Indicators

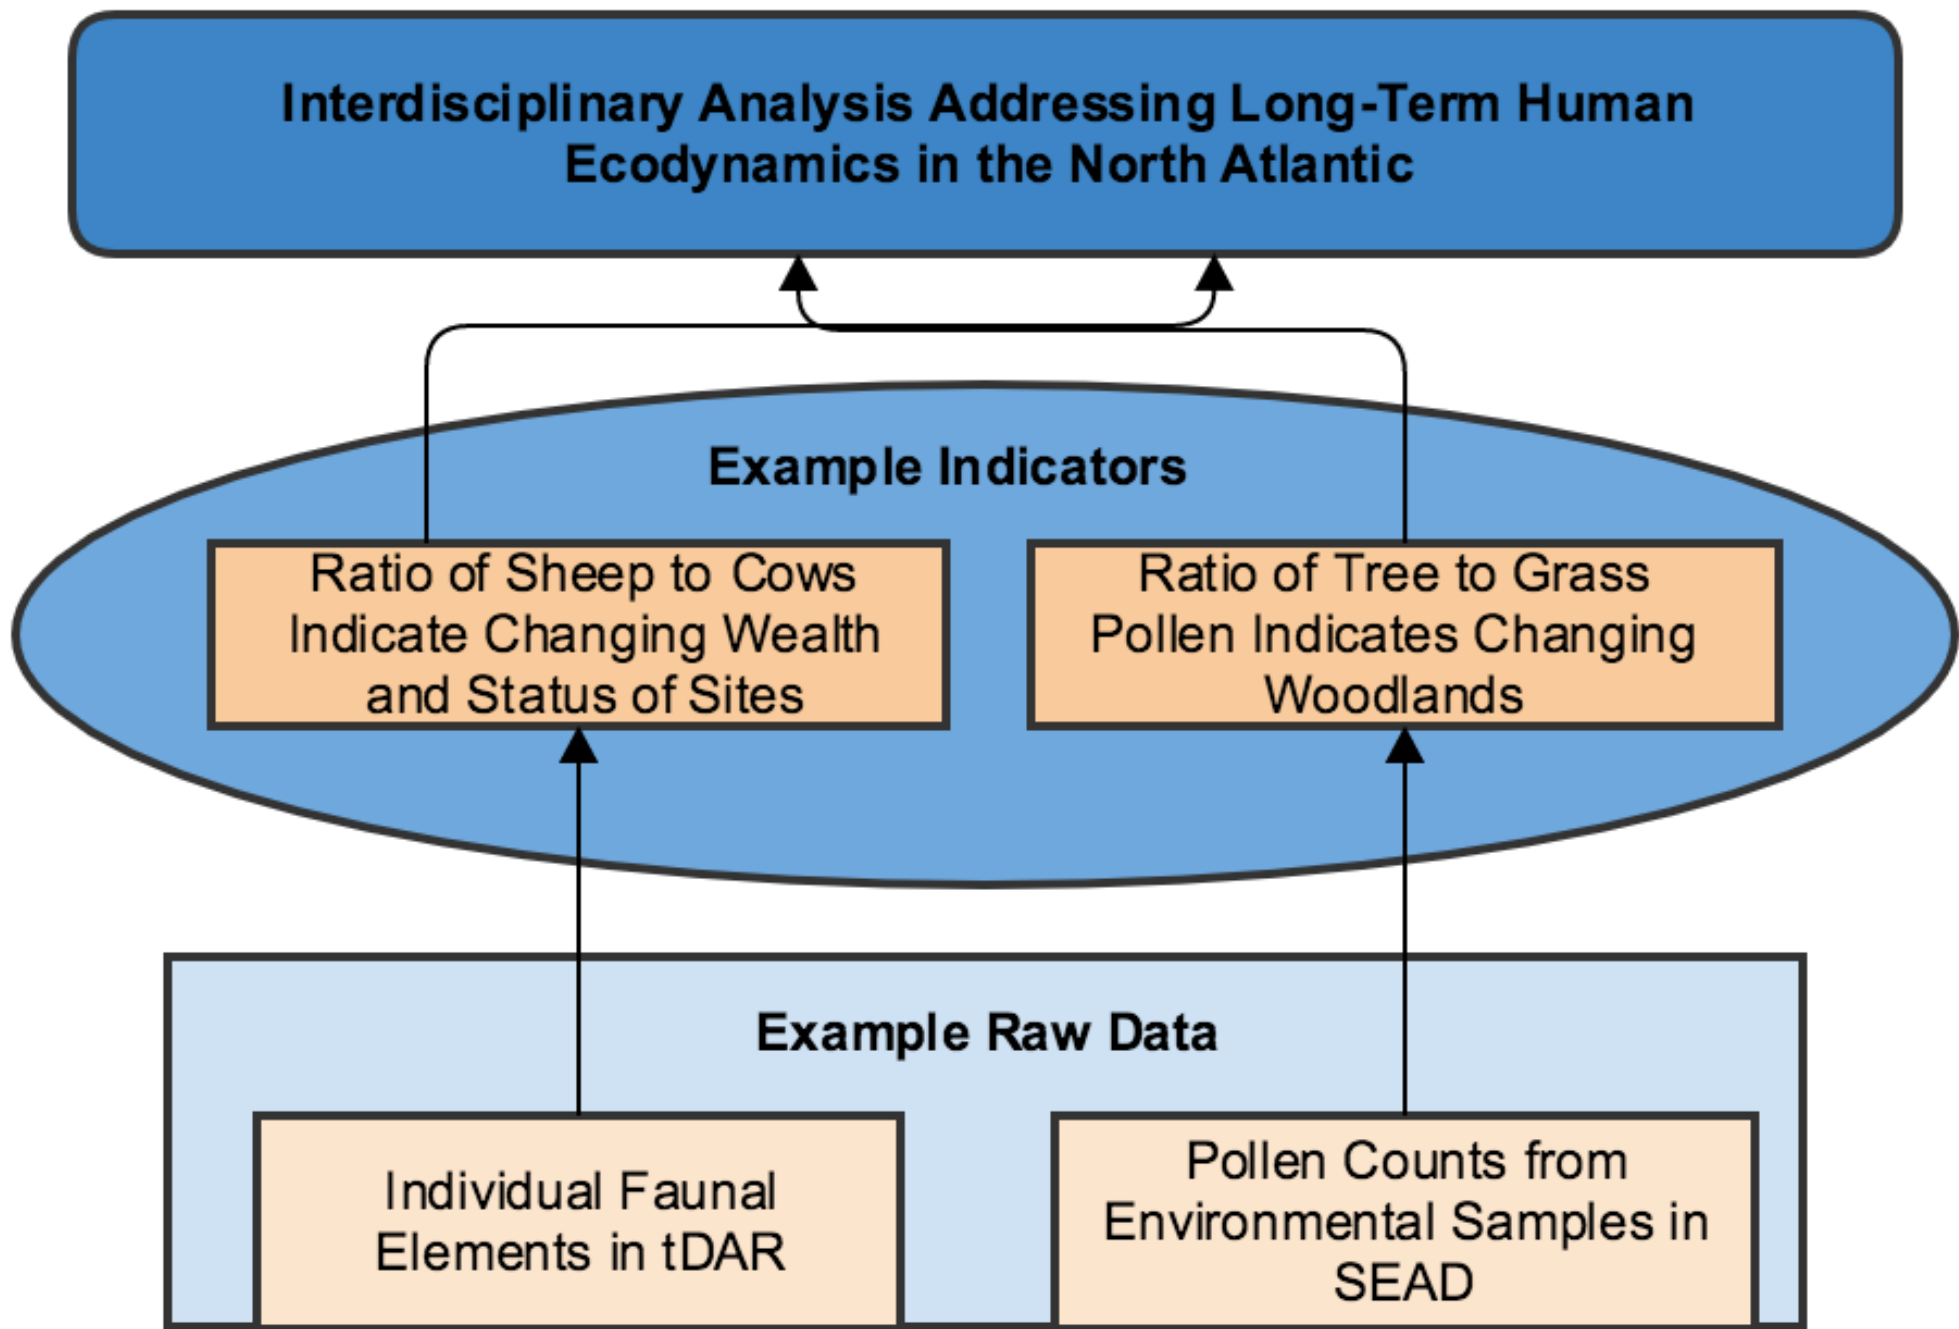

Ratio of Sheep to Cows
Indicate Changing Wealth
and Status of Sites

Ratio of Tree to Grass
Pollen Indicates Changing
Woodlands

Example Raw Data

Individual Faunal
Elements in tDAR

Pollen Counts from
Environmental Samples in
SEAD

LONG(ER) TERM PLANS

Move beyond Iceland (Greenland and Faroes in Years 2 and 3)

Scottish Northern Isles Data (kicking this off Year 1)

Training and outreach modules

Sustainability (?)

THANK YOU!
